Let's look at the **DEFAULT** template and remember this is designed to be quickly modified by making little tweaks like changing the header image **BUT** the intention is that you will replace it with a more advanced design in the future

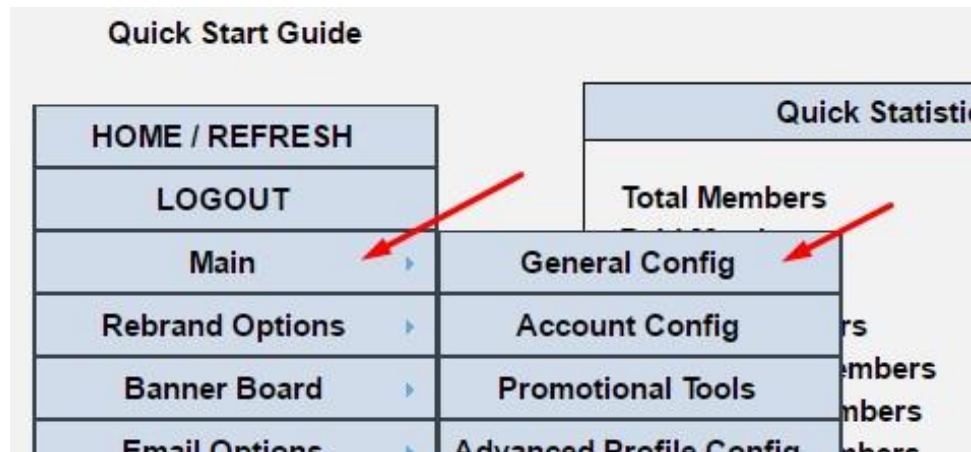

The above **outside.tpl** template consists of all the information taken from this template and it's located **templates/standard/outside.tpl**

You can link to an image or use basic text

<p>Website Header Image Appears on the website top of the page</p> <p>Use html like - <code></code> or simply add text</p>	<pre></pre>
--	--

A decent image that is about 960px wide would be perfect here

Traffic Exchange - Banner Exchange - Text Ad Exchange
Bonus Codes - Direct Link Box - One To One Email - Rebranding
Bannerboard - GEO Sign Up Tracking - Newsletter Ability
Solo Ad Options - Trade Facilities - Social Profiles - Affiliate Program

So I'll change the default image to this

As you see even a simple change of header turns the template into a website like this

Please remember this is also designed as an example simply to show you an easy way to make your own template and in no way is it finished... That's your job ☺

Now looking at the colour scheme the background simply doesn't work so we can easily change the main **default.css** file to reflect any changes without having to edit lots of pages

templates/standard/default.css

```
body{

    background-color: #4e3200;

    font-family:Tahoma,Verdana,Arial,sans-serif;

    font-size:80%;

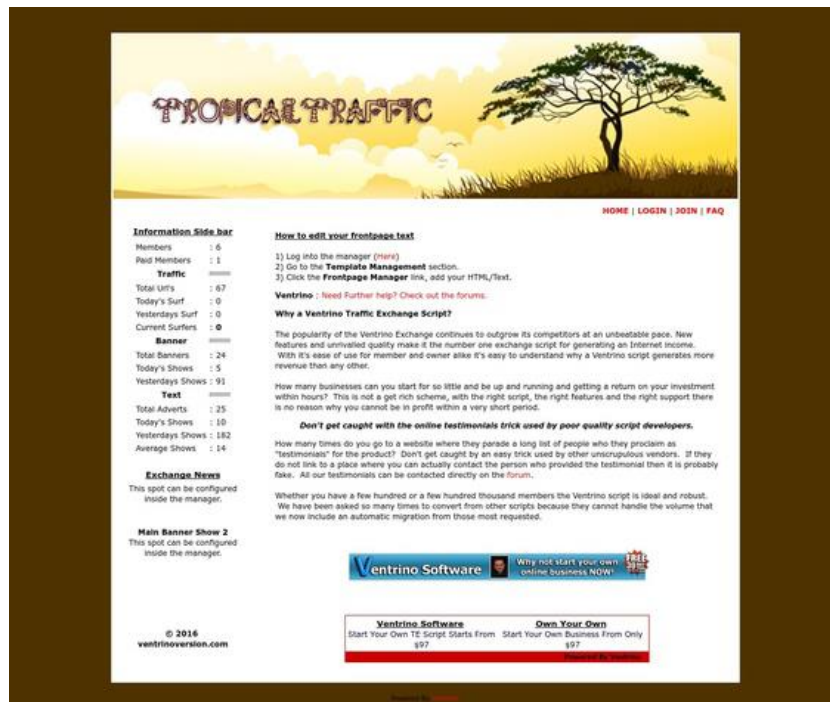

}
```

Changing the **"background-color"** here gives you **VERY** quick results

Next thing we need to do is edit the **"frontpage"** itself to give us a better idea of how the template will work with some more relevant text & images so in your manager you simply go here

Adding html in this location can **REALLY** define your signups as most of the time it will be the first thing they see so whatever you do don't fill it with **MILLIONS** of banners etc

```

Please be careful not to alter the merge tags which look like {Website_Name}, {Hits}, etc

<body style="color:#4e3200; font-family:Tahoma, Geneva, sans-serif;">

You will use html in this area so if you need a quick refresher then check out w3schools.com tutorials

Once you've added some basic html you should look at replacing the text on the left

Next I head over to the main **"Promotional Config"** section to add images or promotional material

Here I'll edit the **"News"** section and **"Banner Show 2"** section to add my personal promotions

We edit here so anything I add here will show on **ALL** pages of the site so it's **VERY** quick & easy

I simply add my html (or remove) then save and this will then reflect on my template

So after **JUST** a few steps I have turned my **FREE** template into

The screenshot shows the TropicalTraffic website. At the top is a header with the 'TROPICAL TRAFFIC' logo and a tree illustration. Below the header is a navigation bar with links: HOME | LOGIN | JOIN | FAQ. On the left is an 'Information Side bar' with statistics:

The main content area has the heading 'Are you looking for some FAST Traffic.?' and text: 'Here at TropicalTraffic.com we offer a WIDE range of promotional options for our members and we are 100% free to join so why not have a look. Once you join you'll see that we are focused on providing you a GREAT source of advertising and we offer High Commissions for ALL memberships regardless if they are free or upgraded.'

Below this is a list of services: Traffic Exchange - Banner Exchange - Text Ad Exchange, Bonus Codes - Direct Link Box - One To One Email - Rebranding, Bannerboard - GEO Sign Up Tracking - Newsletter Ability, Solo Ad Options - Trade Facilities - Social Profiles - Affiliate Program.

Another paragraph states: 'Once you join you can simply sit back and watch your promotions getting traffic and with the varied range of members it's simply great for your promotions.'

A large orange button says 'Sign Up Now'.

Below the button is a 'Disclaimer' section: 'Under no circumstances must this site be viewed as any type of get rich quick scheme. We will never ask you to invest in any type of AutoSurf Program. Any and all purchases you do make through us are in no way an investment. You are paying for the service only.'

At the bottom left is a 'Ventrino Software' logo with the text 'Work From Home NOW Pick Your Own Hours'.

At the bottom right is a banner that says 'There is no Secret to Making Money Online' with the Ventrino logo.

At the very bottom is a copyright notice: '© 2016 ventrinoversion.com'.

I know it's not **AMAZING** but it's a quick easy way to make your site a little different and if you are not in the position to get a designer to make your template then this is a simple way to get own design online for very little cost

You can get header images made on locations like [Fiverr.com](https://www.fiverr.com) and pay silly prices like **\$5-\$20** and essentially make your whole design work around a **\$10** image

That's the **outside.tpl** sorted so the **inside.tpl** is up to you but it's the same principle
(actually it's easier as there is no frontpage to edit)

I strongly recommend that you take a full back up so you simply have a fresh start if you mess around too much with the setup... On that note,
